

COMPLETE SURVEYS FOR STREET PAVING

Everything in Readiness for
Improvement of High-
land Park Section.

Preliminary surveys for the paving of Eleventh East street south of Twelfth South have been made and everything is now in readiness for the letting of bids. The new street improvements in this section will be an extension of the Ninth East drive and will embrace the entire Sugar House business center and run south directly through Highland Park. The city limits at Thirteenth South will be the end of the paving, and at this point will be connected with the fine road improvements which the county has decided to make. Thousands of automobiles will use this fine drive and it is predicted that it is only a matter of a few months when traffic will be as heavy as on Ninth East street.

Two more fine homes are rapidly nearing completion at Highland Park and many owners of building sites in this beautiful residence section are planning immediate building operations. Kimball & Richards, land merchants, and the Kimball & Richards Building company are also making arrangements for an extensive home building campaign. While nothing authentic has been given out by the company in regard to the raise in the value of property in Highland Park as the result of the new paving extension, there is every reason to believe that such an advance will be made.

COMPANY SELLING MANY HOMESITES

According to members of the Progress and Building company the business of the last week has been principally in subdivision property. The general real estate department of the company has been somewhat inactive and almost the entire attention of the salesmen has been directed to the homesite business.

Improvement work in Progress and Building's second addition has been moving at a satisfactory pace, according to members of the firm. The terracing of lots on Fifteenth East street has been finished and cement work such as building sidewalks, curbing and gutters is now going on. During the week a contract was made for a new home on Downingtown avenue and work will be begun next week.

CROP PROSPECTS GOOD FOR RUBY VALLEY

Crop prospects for Ruby valley this year are of the most encouraging nature, according to reports received at the office of Taylor Bros., who are marketing the lands of the Ruby valley irrigation project. Conditions thus far have been ideal for growing crops and the entire valley presents a prosperous and attractive picture. Visitors to the project are reported to be numerous and the constructive work on the reservoir and canal system is being pushed vigorously. Sales of land in the valley are fully up to expectations and indications are that interest in the project will continue to grow as the improvements become completed.

WHERE CANYON BREEZES MAKE COOL SUMMER DAYS

Looking north along paved Ninth East street, past Marlborough place.

As Salt Lake expands and the residence portions of the city build up, the search for home sites by those prospective builders who want to find locations as nearly ideal as possible, takes on new angles constantly.

The latest of these is the demand for home sites in southeast Salt Lake, in the path of the cool canyon breezes that prevail through this section of the city during the hot months.

It has been found that the breezes from Emigration, Farleys and Mill-creek canyons follow well-defined lanes throughout the entire summer and certain portions of the southeast part of town receive the benefit of these cooling winds almost continually.

Owners of property in Marlborough place, the beautiful new subdivision recently opened at Ninth East and Tenth South streets, have found that the tract

PEACH MARKET GOOD; CROPS LOOKING FINE

Growers Expect Banner Year
Under New Marketing
System.

That the fruit marketing association organized in Utah last winter will prove a success the first year is the prediction of the peach growers of the state. The peach crop is reported to be excellent all over the fruitgrowing sections of the state and there is an unusual demand for the fruit in the market. With the increased facilities for marketing the peaches, a perishable crop which demands immediate sale, the growers believe that this will be the most prosperous year they have ever experienced.

This, too, was the unanimous opinion of the board of directors of the Utah Fruitgrowers association in pre-season meeting at the association headquarters in the Vermont building yesterday. All were enthusiastic over the outlook. It was decided that the first shipment of peaches would be made August 25.

The directors adopted a set of suggestions on handling fruit, prepared by W. H. Garvin, general manager of the association, and copies of the suggestions and rules for grading the fruit will be sent to every member. The principal thought brought out in these suggestions is that "good marketing begins in the orchard." The growers are told that the "time to have trouble is before the fruit is in the cars." In line with this policy, they are urged to pack only perfect fruit; see that the boxes contain no nails that could do damage; pack neither too tightly or too loosely, and ship fruit that is not over-ripe.

Plans for the packing house at Orchard, drawn by the architect firm of Cannon, Feltzer & Cannon, were approved and the work on this structure has already been started. An attempt will be made to have the packing house ready before the season for marketing starts.

Those present at the meeting were Hugh J. Cannon, president, Salt Lake; W. H. Homer, secretary, Salt Lake; George A. Palmer, Farmington; D. F. Smith, Farmington; John P. Holmgren, Bear River City; H. H. Thompson, Ogden; Lewis Schoppe, Woods Cross; S. Fred O'Dell, Woods Cross; Joseph S. Walton, Provo; A. G. Goddard, Spanish Fork; and W. H. Garvin of Salt Lake.

MORMON OFFICIALS ARRIVE AT CARDSTON

Will Dedicate Site of First Temple
to Be Erected Outside of
United States.

Presidents Joseph F. Smith and Charles W. Penrose and other Mormon church officials, who are on their way to Cardston, Alberta, Canada, to dedicate a temple site, spent Friday night at Great Falls, Mont., leaving yesterday morning for Cardston. They will arrive there today and participate in a joint conference of the Alberta and Taylor stakes. While in Cardston, the members of the first presidency will select the site for the temple and dedicate it. They will return to Salt Lake the latter part of the present week. The Cardston temple will be the first erected outside of the United States.

ASKS \$10,000 FOR PERSONAL INJURIES

Name City County State

A FEW REASONS WHY

BECAUSE—Western Canada offers the greatest opportunity on the American continent to industrious farmers.
BECAUSE—Successes similar to those we will show you can be easily duplicated by yourself.
BECAUSE—Western Canada offers good lands, good markets, excellent educational facilities and unrivaled climate.
BECAUSE—Land at \$11 to \$30 per acre in Western Canada produces greater crops than land at \$100 to \$200 in old and exhausted districts of the United States.
BECAUSE—The Canadian Pacific Railway will assist desirable settlers to the extent of giving 20 years to pay for the land, and lending the farmer \$2000 at 6 per cent to make improvements, and in case of the approved land purchaser who is in a position and has the knowledge to take care of his stock, will advance cattle, sheep and hogs up to the value of \$1000, on a loan basis, so as to enable the settler to get started from the first on the right basis of mixed farming.
